## YW NEW HUB FACILITY UPDATES

Greetings!

YW Calgary has begun construction on the YW Hub facility project in Inglewood. YW is committed to bringing you consistent and transparent updates during the construction process and we will attempt to share all the necessary information through this monthly email. Below are our most recent updates explaining what we have been doing and what you can expect to see in the near future.

---

### Work Completed

October was a busy month for the project as there were some items that needed to get done before work on the structure could begin. This included:

- Crane installation
- Completing municipal tie-ins for storm-water, water and sewers. This work required temporary road closures on 17th Avenue and 9th Avenue on two separate weekends. We appreciate the patience that was demonstrated while this work was completed.
- Due to activity on the site and with the project overall, our ground breaking event was temporarily postponed. Work continues and we will find other times and milestones for the community and our partners to gather and celebrate with us.

### Work to Come

YW is excited to begin the structural build in November.

- Primary activity for the next several months will be focused on pouring concrete and

beginning to build the foundation, substructure and superstructure of the new facility. The north, southwest and southeast footings will begin construction immediately and will continue until early January

- Work on the north side will commence prior to the end of November.
- We have opportunities for site tours & construction plan information sessions. For more information on the YW Hub Facility visit [www.ywcalgary.ca/Inglewood](http://www.ywcalgary.ca/Inglewood). If you are interested in on site tours or the construction plan sessions please contact us at the number or email below.

Please contact Deanna at [dholt@ywcalgary.ca](mailto:dholt@ywcalgary.ca) or 403.262.0477 if you have any questions or concerns.

Regards,

YW Calgary

As an agency that serves vulnerable women and children often fleeing abuse in the home, we take safety very seriously. Our priority is safety for those working on the site and for those living in close proximity.
