

YW HUB FACILITY UPDATES

DATE: April 16, 2018

Construction is moving quickly at the YW Hub facility in Inglewood! Below are our most recent updates explaining what we have been doing and what you can expect to see in the near future.

Work Completed

It is amazing the progress that can happen in a few weeks. A few months ago we began pouring the concrete for the foundation of our building and now you can see the fifth and highest floor of the south tower has been capped. In addition, the north tower which faces 17th Avenue is growing daily. This section represents the future front entrance of the building where we look forward to welcoming you all, just over a year from now.

On March 26, 2018 YW celebrated a milestone in the construction of our new home with YW team members and our long-time service partners from the Government of Alberta and the City of Calgary. YW was thrilled to receive \$8.6 million in funding from the provincial government and \$560,000 from the City of Calgary to support our transitional housing program which will offer safe accommodation to 100 women in our new facility.

Work to Come

With the concrete pours on both the north and south sides underway, the exterior cladding will begin shortly.

Here are some exciting construction updates for this month:

- Windows are arriving on site and being installed this week
- The concrete is being finalized and we anticipate it will be completed by mid-May
- The removal of the tower crane will occur early May
- The mechanical and electrical rough ins are moving along in the south tower
- The steel stud framing is 50% complete. This framing should be close to completion by mid-April

We continue to have opportunities for site tours and construction plan information sessions. For more information on the YW Hub Facility visit www.ywcalgary.ca/Inglewood. If you are interested in a site tour or a construction plan session please contact us at the number or email below.

A special note to our close neighbours in the area. We appreciate the challenges the extra construction vehicles have presented and we continue to work to find solutions to these challenges. Your patience and support during this process is appreciated.

Please contact Carla at clink@ywcalgary.ca or 403.705.5779 if you have any questions or concerns.
